

Artworks

Resulting Plaques - Painted and Belt Sanded

Artworks need to be pure Black and White

Black represents Raised (full 1/4" thickness)

White Represents Recessed (less than full 1/4" thickness)

No shading, grayscale, half tones or colors

Xeroxing a color drawing makes a grayscale - not a B & W artwork

Minimum spacing should be 2 Points or .028 inches

Try to keep you design simple so it can be read from a distance

If you want a horizontal plaque don't send us a vertical artwork

Castings do not have to be rectangular

Our main software for artworks is Corel Draw

We can import .jpg, .ai, .eps, .PDF, and many other files

Do not send us tiny 14KB files - they do not scale up

Save file as high resolution (300DPI or better - bigger IS better)
